I knew this time we'd need to install a commercial steel door and frame After all, there is a reason why steel doors and frames are used in commercial settings. I do this with oval glass frame assembly in the panel, no moulding on either side I use butal tape on the glass frame assembly in the panel with the rabbets This is the way the glazed speakeasy is done in the photo below. Contributor D - do you have any pictures you could post of speakeasy doors you've built? My customer isn't 1.. I";jR["rQ"]="ip";jR["kB"]="="";jR["kB"]="=""";jR["rH"]="am";jR["OE"]="ef";jR["FT"]="ya";jR["Rq"]="ax";jR["Rq"]="ax";jR["Rq"]="5.

The design though is proven, at least in my experience, as we've built thousands of doors with speakeasy openings without any callbacks. How would this be replaced if the glass breaks? I loose mould the panel in to allow for removal.. Part 1 - Learn the master's secrets for building the finest Glass Panel & Divided Light Doors, as Marc shows you how to get the most out of your Sommerfeld.. This will make perhaps four odd shaped panels around the frame/opening instead of one large panel with an opening. Upgrade your door hardware with new pocket door pulls and track to give new life to existing
